

Elbert County Baby Bear Hugs Regional Home Visitation Program

My name is Sharon Nicholas, I am excited to bring a home visitation program to Elbert County. Baby Bear Hugs is a universal voluntary program that offers parenting support, education, and connection to community resources to families with children prenatally and until the child is 3 years old through one-on-one group support.

A visit will include parenting and child development information, and community resources that may be valuable to a new parent. Please feel free to contact me or mail this form to the address below for a free no obligation visit.
