

Books for Babies!

Welcome new babies to our community with a Books for Babies bag. Each bag contains information on how important books and reading are for babies, age appropriate books, and materials from agencies in our community that provide information and support to families of young children.

Books for Babies bags are available to any baby up to one year old who lives in Elbert County. They can be picked up at any branch of the Elbert County Library District. This program is sponsored by the Elbert County Library District and the Elbert County Early Childhood Council.
